Contents of Volume 49

NUMBER 1, JULY 1998

Haouche-Gingins, C. and Charlet, J. A knowledge-level testing method . 1

Daly-Jones, O., Monk, A. and Watts, L. Some advantages of video conferencing over high-quality audio conferencing: fluency and awareness of attentional focus 21

Alonso, D. L. and Norman, K. L. Apparency of contingencies in single panel and pull-down menus 59

Moon, Y. and Nass, C. Are computers scapegoats? Attributions of responsibility in human–computer interaction 79

NUMBER 2, AUGUST 1998

de Rosis, F., Pizzutilo, S. and de Carolis, B. Formal description and evaluation of user-adapted interfaces 95

Benaroch, M. Knowledge modeling directed by situation-specific models . 121

Setnes, M., Babuska, R. and Verbruggen, H. B. Transparent fuzzy modelling 159

Chaib-draa, B. and Desharnais, J. A relational model of cognitive maps . 181

NUMBER 3, SEPTEMBER 1998

Flor, N. V. Side-by-side collaboration: a case study 201

Botting, R. M. and Johnson, C. W. A formal and structured approach to the use of task analysis in accident modelling 223

Blandford, A. E., Buckingham Shum, S. J. and Young, R. M. Training software engineers in a novel usability evaluation technique 245

Maiden, N. A. M. and Hare, M. Problem domain categories in requirements engineering 281

NUMBER 4, OCTOBER 1998

Benjamins, V. R. and Fensel, D. Editorial: problem-solving methods 305

Wielinga, B. J., Akkermans, J. M. and Schreiber, A. Th. A competence theory approach to problem solving method construction 315

Fensel, D. and Schönegge, A. Inverse verification of problem-solving methods 339

Ten Teije, A., van Harmelen, F., Schreiber, A. Th. and Wielinga, B. J. Construction of problem-solving methods as parametric design 363

Valente, A., Breuker, J. and Van de Velde, W. The *Common*KADS library in perspective 391

Orsvärn, K. Some principles for libraries of task decomposition methods . . 417

9 176HI XL 2595 4/99 31249-200 NJLB

Motta, E. and Zdrahal, Z. A library of problem-solving components based on the integration of the search paradigm with task and method ontologies . . 43

Pierret-Golbreich, C. Supporting organization and use of problem-solving methods libraries by a formal approach 47

O'Hara, K., Shadbolt, N. and Van Heijst, G. Generalized directive models: integrating model development and knowledge acquisition 49

Gennari, J. H., Cheng, H., Altman, R. B. and Musen, M. A. Reuse, CORBA, and knowledge-based systems 52

Speel, P.-H. and Aben, M. Preserving conceptual structures in design and implementation of industrial KBSs 54

Molina, M., Hernández, J. and Cuena, J. A structure of problem-solving methods for real-time decision support in traffic control 57

Hori, M. and Yoshida, T. Domain-oriented library of scheduling methods: design principle and real-life application 60

Puppe, F. Knowledge reuse among diagnostic problem-solving methods in the Shell-Kit D3 62

NUMBER 5, NOVEMBER 1998

Howie, D. E. and Vicente, K. J. Making the most of ecological interface design: the role of self-explanation 65

Markopoulos, P., Johnson, P. and Rowson, J. Formal architectural abstractions for interactive software 67

Briggs, P., Burford, B. and Dracup, C. Modelling self-confidence in users of a computer-based system showing unrepresentative design 71

Dowell, J. Formulating the cognitive design problem of air traffic management 74

NUMBER 6, DECEMBER 1998

Menzies, T. and Clancey, W. J. Editorial: the challenge of situated cognition for symbolic knowledge-based systems 76

Khan, T. M., Mitchell, J. E. M., Brown, K. E. and Leitch, R. R. Situated learning using descriptive models 77

O'Neill, J. An ontology for framing 79

Clancey, W. J., Sachs, P., Sierhuis, M. and van Hoof, R. Brahms: simulating practice for work systems design 83

Menzies, T. Towards situated knowledge acquisition 86

Richards, D. and Compton, P. Taking up the situated cognition challenge with ripple down rules 89

Rappaport, A. T. Constructive cognition in a situated background . . 92
